

Catalogue

2024

1978-2024

Miguel Juan Gimeno created, with three die-stamping colleagues, **Gisama SL**, in the calle Virgen the la Salud, in Ibi, Alicante.

The miniature steel cars and bicycles make-up the biggest part of his catalogue with more than 150 items.

1978

We changed our premises to obtain a better work space.

1987

We changed the name from Gisama to **Game Movil** and increased our products to include garages, dolls houses and push chairs.

1998

The 1st year at the Nürnberg fair, Germany. We continue to attend, in Hall 4 / A-58

The first production of construction blocks (**Blockis**).

2002

Forty-six years of play

We are celebrating our 46 th anniversary, four decades of strength and dedication which transformed our family business. We are company leaders in the sector and today export to more than 30 countries in Europe, America and Asia.

Our success wouldn't have been possible without the coordination of our committed team with the ideology of quality and innovation of our brand from our origins and to follow and apply with the same effort as of the beginning.

Our commitment goes without saying, the quality and rigorous compliance of the european safety standards, and we believe in our responsibility to our clients and for that reason we maintain our integral production in the land where we were born, Ibi, Alicante.

Currently, we have available an increased stock of plastic toys, from the highlighted construction games, with seven lines of high quality added value and great reception, as well as in schools and education and also in the home.

Finally, we want to express our gratitude for having confidence in us during these years and we aim to meet all your needs in the future.

Finalists of the **Best Toy 2016** in the category "construction" with the product "Combisticker".

The first production of vertical construction puzzles (**Puzzle Up**).

Finalists of the **Best Toy 2022** with the product "Puzzle Up Careers".

2010

We changed the sign. The new logo transmits an image of innovation with bright colours, round and smooth shapes, likes our toys.

2016

The first on the market with the line **Cooperation building blocks**.

2018

2019

2021

The first production of **Puzzle Up XL**. A new version of Puzzle Up to people older than seven years. (+7)

2022

ABC

Our new collection with two sides about the alphabet letters and symbols.

COMBIS

STICKER

Construction game **Combis** with a number of different pieces combined with adhesives to give more life and allow the child to interact with the product and enhance their education. The adhesive design was studied so that the characters can change different parts of the bodies and get on any vehicle. It includes instructions for easy and fast placing of the adhesives. It's available in different packagings.

Educational potential

- Develops visual space.
- Stimulates creativity.
- Perfects fine motor skills.
- Facilitates language skills.
- Provides self-esteem achievements.
- Stimulates the imagination.

Toys
from
Spain

The logo for 'Toys from Spain' features the text 'Toys' in red, 'from' in a smaller font, and 'Spain' in red. A stylized yellow sun with a face is positioned between 'from' and 'Spain'.
